**ORDER**

Plaintiff alleges deliberate indifference to his Hepatitis C diagnosis, particularly in the prescription of Excedrin (which contains acetaminophen). [Doc. No. 1]. The Court recently ordered officials at the Davis Correctional Facility (DCF) to prepare a Special Report and to include “relevant institutional and medical records . . . .” [Doc. No. 14]. Plaintiff now seeks an order to supplement that report, asking specifically for medical records “including prescriptions for Excedrin for the last 5 years” and blood test results (presumably for the same period). [Doc. No. 18]. Although the Court is confident that officials would include such records, in an abundance of caution, it GRANTS Plaintiff’s motion. Officials shall include *all* Plaintiff’s medical records from 2014-2019 relating to his blood tests, Hepatitis C diagnosis and treatment, and Excedrin prescriptions.

The Clerk of the Court is directed to mail this Order to officials at DCF.

IT IS SO ORDERED this 30<sup>th</sup> day of July, 2019.
